<https://github.com/surahi>
+2348105209893

Skills

Proficient: Python, SQL, C, Postgres, Git, Flask, mysql, APIs

Moderate: HTML, CSS, Javascript, Kubernetes, AWS, TDD, React

Projects

Trivia App https://github.com/surahi/trivia_app

Jul 2022 - Aug 2022

- Developed the application iteratively and safely using Test Driven Development (TDD) which results in less debugging.
- Wrote effective documentation for the API.

Coffee Shop https://github.com/surahi/coffe_shop

Aug 2022 – Sep 2022

- Wrote a script in python to create RESTful APIs for the backend.
- Improved performance and simplicity of the application
- Ensured that users have access to the items in the shop according to their permissions.

Fyyur App https://github.com/surahi/fyyur_app

Aug 2022 - Sep 2022

- Ensured users can create, update and delete data through the form.
- Improved modifiability and and visibility of the application
- Used postgres and SQLAlchemy for the database.

Work Experience

Software Engineer Intern

Feb 2022 - Feb 2023

ALX Holberton, San Francisco, CA

- Building an Airbnb clone website.
- Implemented command interpreter to manipulate data without a visual interface, like in a Shell (for development and debugging).

Education

Udacity

Jul 2022 – Oct 2022

Nanodegree, Full-Stack Web Developer(Frontend & Backend)

Ladoke Akintola University of Technology
BTech, Mathematics

Jan 2017 – Jan 2023
